

Small Business Rates Relief Fact Sheet

Ratepayers who occupy a property with a rateable value which does not exceed £50,999 (and who are not entitled to other mandatory relief or are liable for unoccupied property rates) will have their bills calculated using the lower small business non-domestic rating multiplier, rather than the national non-domestic rating multiplier.

In addition, generally, if the sole or main property is shown on the rating list with a rateable value which does not exceed £15,000, the ratepayer will receive a percentage reduction in their rates bill for this property of up to a maximum of 100%. For a property with a rateable value of not more than £12,000, the ratepayer will receive a 100% reduction in their rates bill.

Generally, this percentage reduction (relief) is only available to ratepayers who occupy either-

(a) one property, or

(b) one main property and other additional properties providing those additional properties each have a rateable value which does not exceed £2,899.

The rateable value of the property mentioned in (a), or the aggregate rateable value of all the properties mentioned in (b), must not exceed £19,999 outside London or £27,999 in London on each day for which relief is being sought. If the rateable value, or aggregate rateable value, increases above those levels, relief will cease from the day of the increase.

Certain changes in circumstances will need to be notified to the local authority by a ratepayer who is in receipt of relief (other changes will be picked up by the local authority). The changes which should be notified are-

(a) the ratepayer taking up occupation of an additional property, and

(b) an increase in the rateable value of a property occupied by the ratepayer in an area other than the area of the local authority which granted the relief.
