Definitions:

TOMs	Themes, Outcomes & Measures. These act as a 'menu' of the different ways suppliers can fulfil their social value obligations whilst directly supporting our corporate objectives.
Social Value Matrix	It guides bidders to produce clearly defined commitments where crucial information such as the offer, quantity, milestones, and responsible person(s) are stated.
Monetary Values	These are values that enable bidders to quantify their social value commitments to reach the 5% minimum expectation. Each TOM has been assigned a monetary value.
Proxy Values	These are average sums that correlate to the yearly uplift in life satisfaction for individuals, the government, and the community. They are established using public sector data. When reporting, we will use proxy values to calculate how much social value has been generated by suppliers.
Social Value Impact Fund	The Social Value Impact Fund (SVIF) consists of financial contributions and liquidated damages from suppliers, and it is used to support community initiatives, primarily those that aim to reduce poverty in the borough.
FTE	Full-time Equivalent (35 hours).
Local	Resident or business with a London Borough of Barnet postcode.
Day	Working day which equates to 7 hours.
Closed Recruitment	A selective process where job opportunities are available only to specific group of people.
