I am writing to express my concerns regarding the Edgware Policy in the proposed Main Modifications to the Barnet Local Plan.

Edgware is the most importance town for me and my family to visit most frequently. We rely on the public transportation in the area too both by train and by bus. It's already a very packed place. How would it work for the new proposal with enormous families move in. The high number of the new houses need to be revised and replaced with a more affordable housing number in this area.

As a resident of Edgware, I understand the plan has been under development since 2020. However, I only recently became aware of its existence and its potential impact on our community.

Unfortunately, I haven't received any written communication from Barnet Council about the Local Plan, despite its significance for Edgware's future. Given the potential for significant change to Edgware's character and residents' quality of life, I believe wider notification would have been helpful.

I found the volume and complexity of the Local Plan and the related documents overwhelming. The 42-day consultation period seems insufficient for anybody to comprehend the plan's details – especially for anyone with work or caring commitments.

However, I am deeply concerned about the impact of the Local Plan on Edgware and its residents, both present and future.

In light of these concerns, I would like to express my support for any [representations](#) made by Save Our Edgware and the Edgware Community Association. Please consider their submissions as reflecting my own

Please can you arrange for this letter to be considered as part of the Equality Impact Assessment?

Yours sincerely

Helen Yu
