Dear sir, Madame.

Sam shah , [REDACTED]

Me and my family have been living here for 50 years in two houses.  
Totally 100% against the TOWERS to build in small space!

We use the local shops everyday, my family use to and still work in the shops.

We do banking, good selection off banks people from Harrow came to do there banking here, due easy parking and large shops in broadwalk which is covered during shopping.

No matter the weather, Edgware high street has footfall because of this hence the rents are high.

Choice of pharmacies, my father is disable parking bays , no issue in parking.

Wonderful bus station which FITS the purpose does its job.

Without bus stations, my kids school far away this get done.

All the nationals get along fine,

We will lose public parking space, the broadwalk shopping centre will be too small

For people to come to,no parking the high street will suffer.

This will effect the small business we use,Everything is being Bulth on BARNET

Site , all other HARROW site will not look right at all.

The decisions should be made collectively by both boroughs.

I know a lot of elderly people , disable. People and my good Jewish friends are thinking to move from Edgware due to this.many people know labour barnet , will not listen to them at all.

Your sincerely sam
